SUMMARY

Creative learner and problem solver looking for full-time web developer position. Experienced with front-end and back-end web technologies such as Javascript, Node, SQL & Non-SQL databases, as well as working with RESTful APIs like PayPal, Google Maps, QuickBooks online, and WordPress. Enjoys working to solve big and complex problems, is very personable, and is an expert in customer service.

TECHNICAL SKILLS

HTML, CSS, Javascript, JQuery, Bootstrap, Materialize, Google Firebase, Node.js, React.js, MongoDB, MySQL, FileMaker Pro, AppleScript, relational-database modeling, ODBC, cURL, JSON, RESTful APIs, AJAX, AXIOS, setting up and working with AWS EC2 instances, gitHub, Heroku, WordPress, PHP, using the terminal CLI tools, Hosting and Domain setup and troubleshooting, FTP/ SFTP, technical training and instruction, public speaking, creating and distributing written and video based documentation, understanding and applying general programming logic to solve problems, and an insatiable desire to learn.

APPLICATIONS BUILT

GravityForms to FileMaker   Custom solution using Javascript OAuth authentication and calculated API calls to exchange data between WordPress and FileMaker Pro.

North Metro Community Services App   Custom CRM, Notes and Incident tracker optimized for web use. Created to streamline (and better organize) decades worth of disparate data files.

Desire-to-expire   A simple web app designed for tracking fridge inventory. Designed for mobile use and uses AuthO API for user authentication, MySQL, REACT, and node.js

EXPERIENCE

Codence, Denver CO   March 2019 to Present

Application Developer

- FileMaker Developer, Team Lead, Project Manager, or on-call client liaison depending on the project.

- Designing Relational databases as well as front end UX/ UI design and development.

- Working with clients and businesses to identify and translate workflow bottlenecks into innovative custom apps for better efficiency and organization.

- Experience developing software in sprints, and using common tools for Agile Software Development like the Atlassian online suite, Slack, Microsoft Office, Lucidchart and Zoom.

Howard Solutions Inc., Denver CO   2015 to March 2019

Owner and Developer

- Developing WordPress Websites, and custom FileMaker Pro database solutions for small businesses.

- Heavy experience with front end web technologies like HTML, CSS, and Javascript and WordPress.

- Excellent understanding of relational database modeling and using technology like cURL, ODBC and MySQL for sending and receiving data between WordPress, FileMaker Pro, and other web-based APIs.

Apple Inc., Littleton CO   2006 to 2017

Creative Trainer/ Instructor

- Led both private and group-based learning in Apple Retail stores, specializing in topics like: spreadsheets, FileMaker Pro databases, and Swift/Javascript programming basics and logic.

- Developed and maintained various internal database, and web-based tools for employee use.

- Developed strong customer service skills including empathy, listening, and the ability to communicate very technical ideas to less tech inclined individuals.

- Consistently held one of the highest year to year customer satisfaction scores in the store.

- Became Apple Certification in FileMaker Pro, and Apple-structured coding based curriculums.
